

FEED THE FUTURE

The U.S. Government's Global Hunger & Food Security Initiative

FEED THE FUTURE 101

OVERVIEW

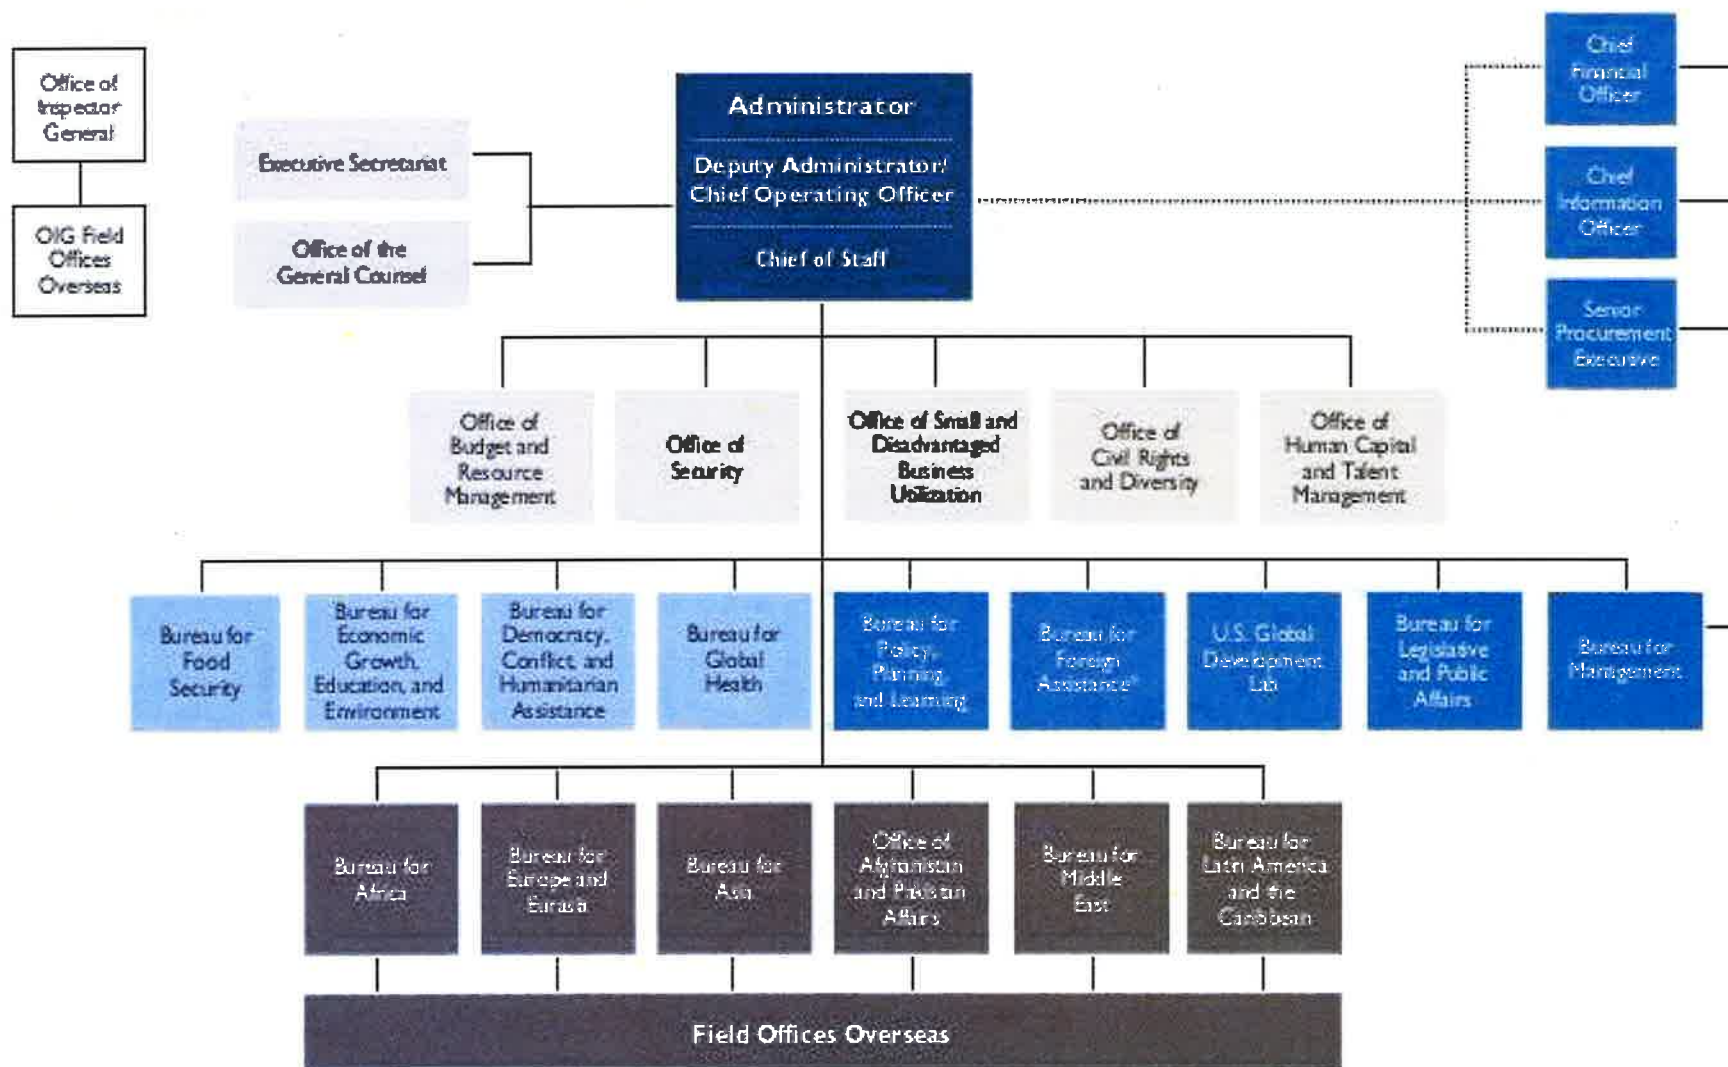

2018

ABOUT USAID

- The United States Agency for International Development (USAID) is the lead U.S. Government agency that works to end extreme global poverty and enable resilient, democratic societies to realize their potential.
- In order to support these goals, President John. F. Kennedy created the United States Agency for International Development by executive order in 1961

WHAT IS FEED THE FUTURE?

- Feed the Future is the U.S. Government's **global hunger** and food security initiative.
- It supports country-driven approaches to **address the root causes** of hunger and poverty and forge long-term solutions to chronic food insecurity and undernutrition.
- Approach **enacted into law** in 2016 with overwhelming bipartisan support.

WHY FOOD SECURITY?

A Challenge & Opportunity

Growing global population

Expected to grow to 8.6 billion people by 2030 and 9.8 billion by 2050.

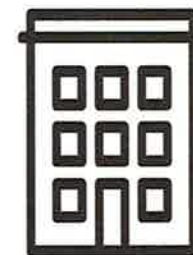

Growing demand for food

Food production will need to increase by at least 60% in the next decade.

Youth

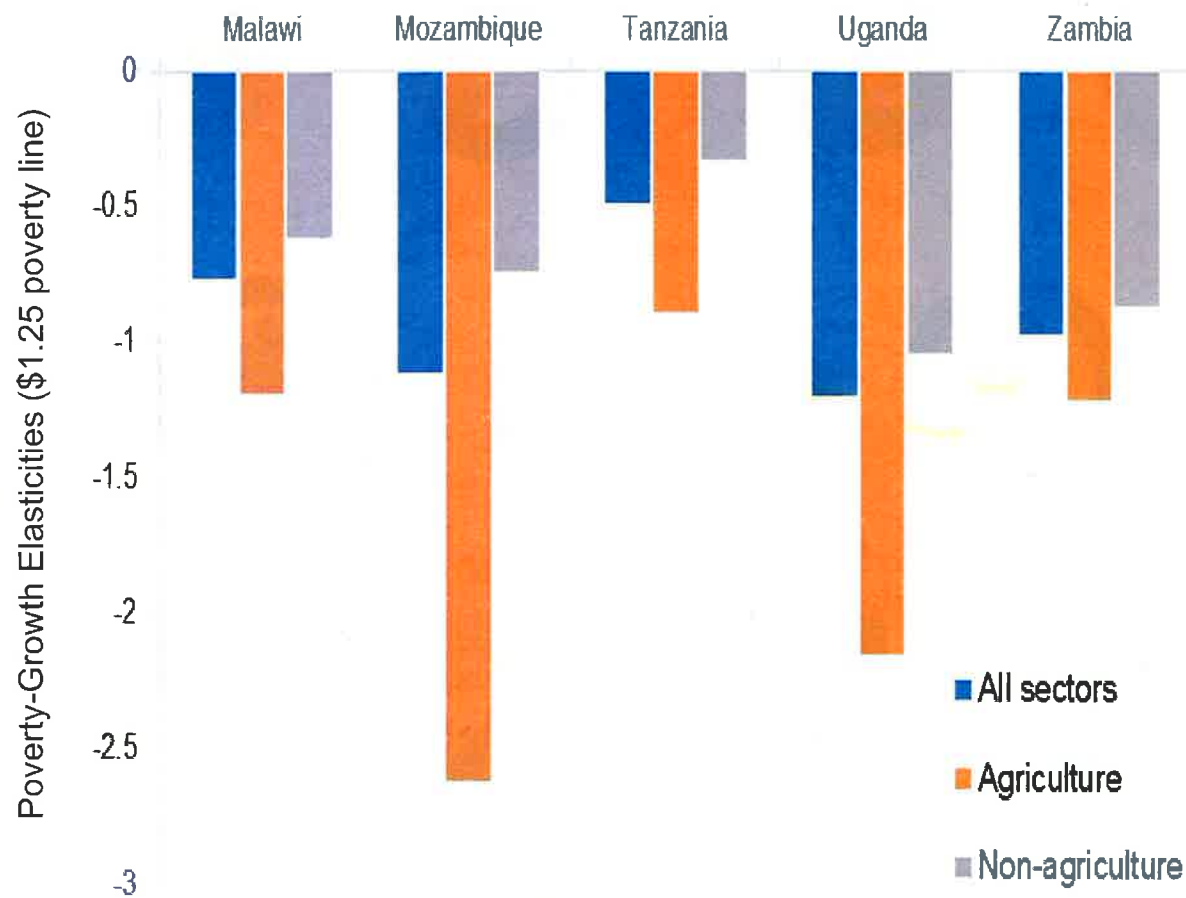

Half of the world's population is under 30, and 90% of youth live in developing countries.

Urbanization

2.5 billion additional urban residents are projected by 2050.

Agricultural Growth Yields Largest Poverty Reduction

Thurlow, 2014

U.S. Government Partners

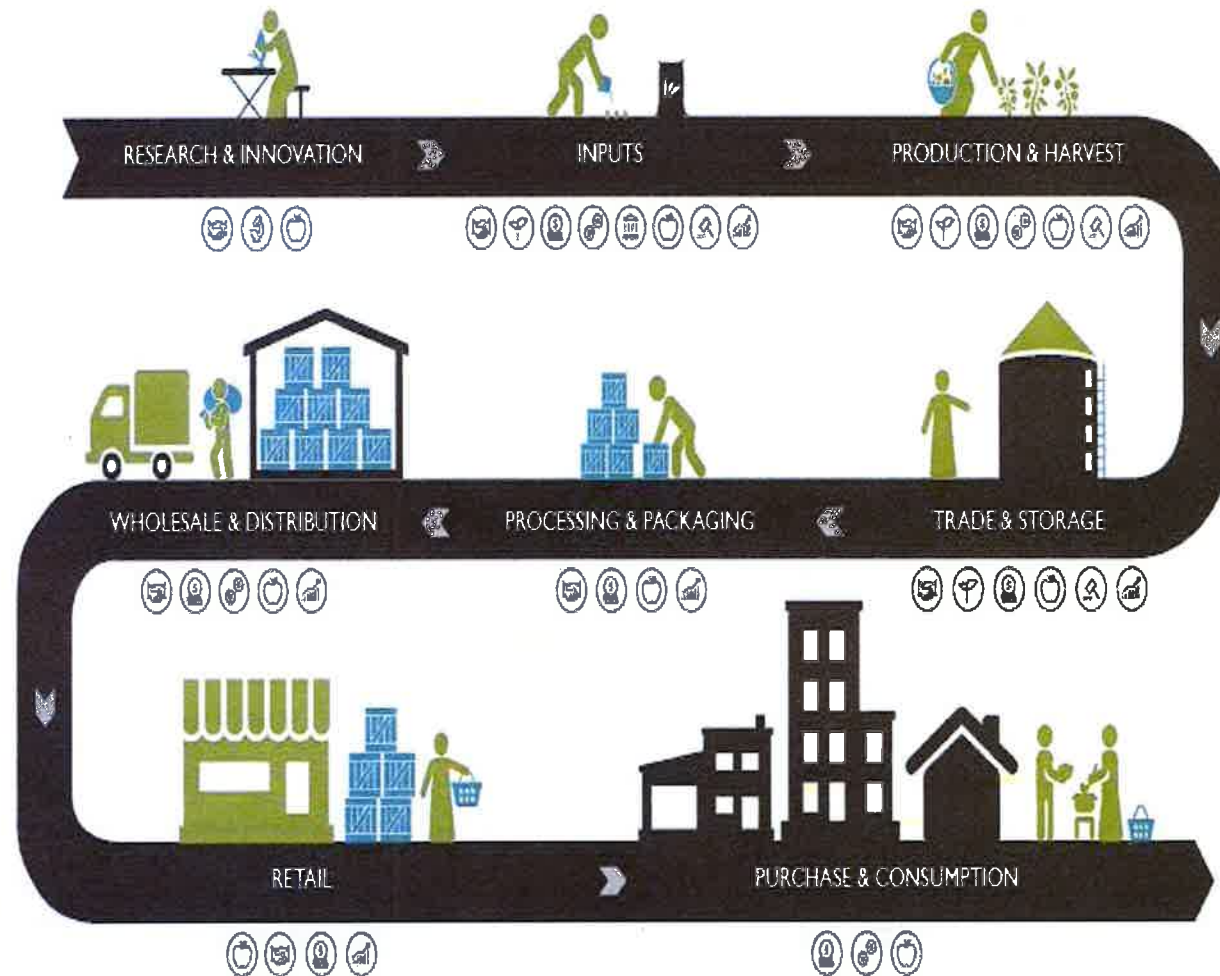

GFSS RESULTS FRAMEWORK, 2017-2021

Goal: Sustainably reduce global hunger, malnutrition, and poverty

Transformation Beyond the Farm

Making a Difference

- + **9 million** more people are living above the poverty line, **1.7 million** more households are free from hunger, and **1.8 million** more children are free from stunting
- + Leveraged nearly **\$830 million** in direct private sector investment and unlocked **\$2.7 billion** in agricultural loans
- + Smallholder farmers made **\$2.6 billion** in new agricultural sales

Investments Abroad Have Benefits At Home

- Feed the Future is a growth accelerator that helps entrepreneurs create wealth and opportunity in their communities, leading to **new customers** for American goods and **new opportunities** for American companies.
- This growth has meant good things for the American economy. In sub-Saharan Africa, **one percent increases** in agricultural productivity have led to **U.S. export growth of \$77 million**.
- Our investments in research **protect the livelihoods of U.S. farmers and ranchers** as Feed the Future researchers find and deploy new ways to fight agricultural diseases before they make their way to our shores.
- At every level of our work, we are seeing indirect **benefits flow to the American public**.

Partnership Makes Progress Possible

Feed the Future pairs **the best and brightest in America** with **partners around the world** to maximize impact.

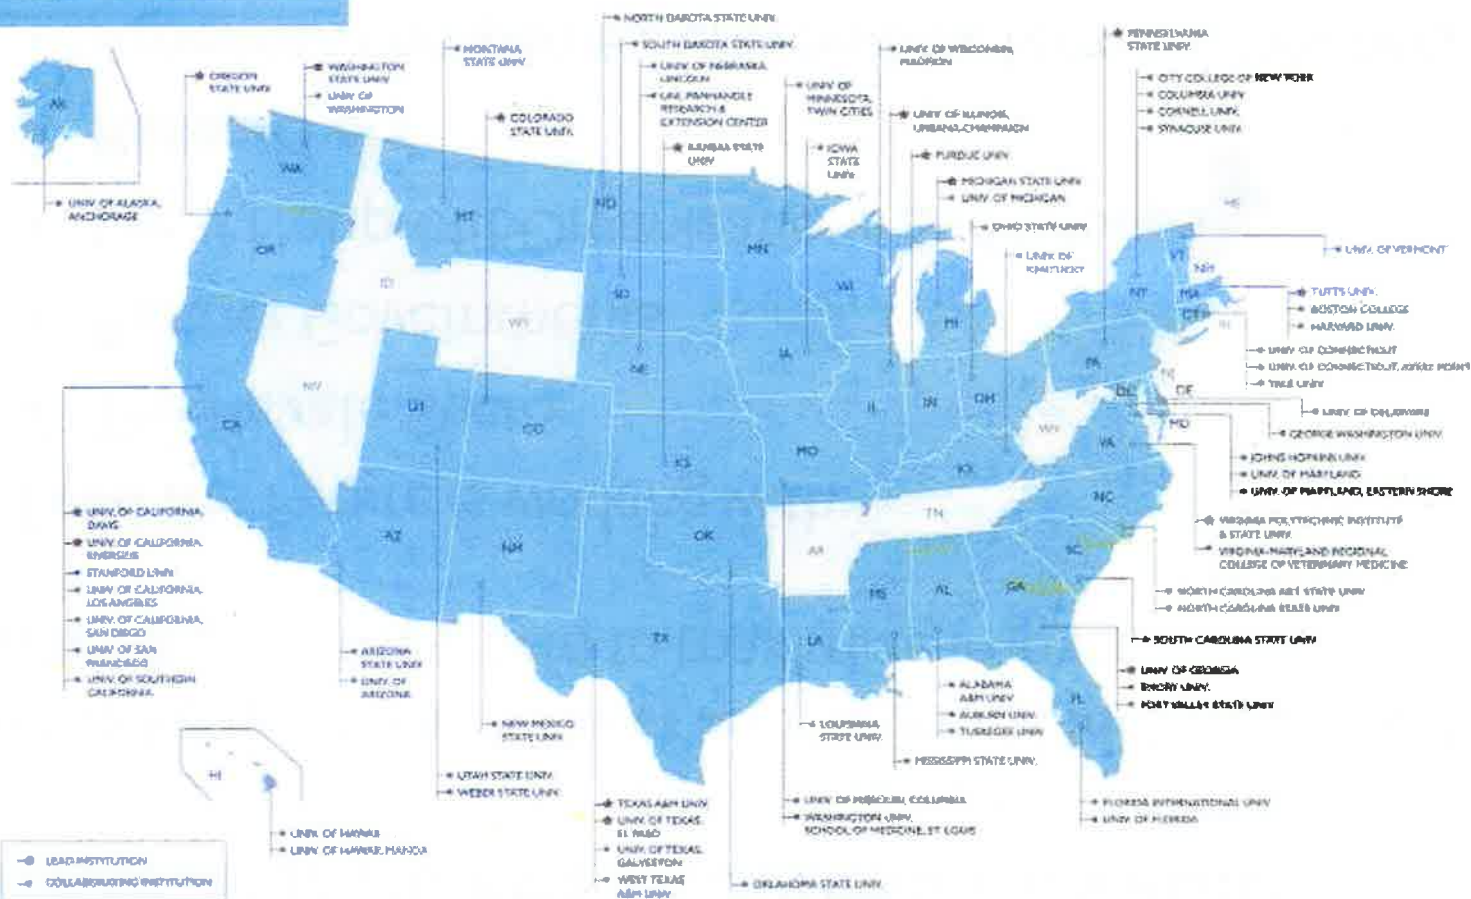

Feed the Future is working with:

- The Private Sector
- Partner Governments
- Local Nonprofit Organizations and Groups
- Researchers
- American companies, universities, farmers, ranchers, and NGOs

UNIVERSITY PARTNERSHIPS

FEED THE FUTURE WORKS WITH U.S. UNIVERSITIES TO FIGHT GLOBAL HUNGER

The Feed the Future website partners with a number throughout the world. This is a sampling of university partners to date in the United States. For more information and updates visit www.feedthefuture.gov or follow us on Twitter @FeedTheFuture
